

**H1N1 Swine Flu
99+% Kill Rate**

Sick people in your home? At work? Where you shop? At your child's school or daycare?

NOW,

You can fight back for a more healthy space with RGF's Guardian Air!

Advanced Oxidants are sent throughout the room to kill microbials at the source. Gases, VOC's and odors can also be significantly reduced. Advanced Oxidation Plasma will be carried throughout the ducts and rooms for a continuous purification process and a quick kill of newly introduced microbials and odors.

Independent tests show a **99% kill rate** for

Swine flu (H1N1)

Bird flu

Strep

Escherichia coli (E. coli)

Staphylococcus Aureus

And many other microbes

The RGF Plug In Plus Natural Air Purification System provides bacteria, mold, odor and VOC's (chemical odors) reduction. The advantage of the Plug In Plus is its ability to be used inconspicuously in any room. This is an air treatment system, not a filter.

Order yours today from Cyngier Heating & Air Conditioning! **[Installation Request](#)**.
